

How to Share a Playlist in TAG®

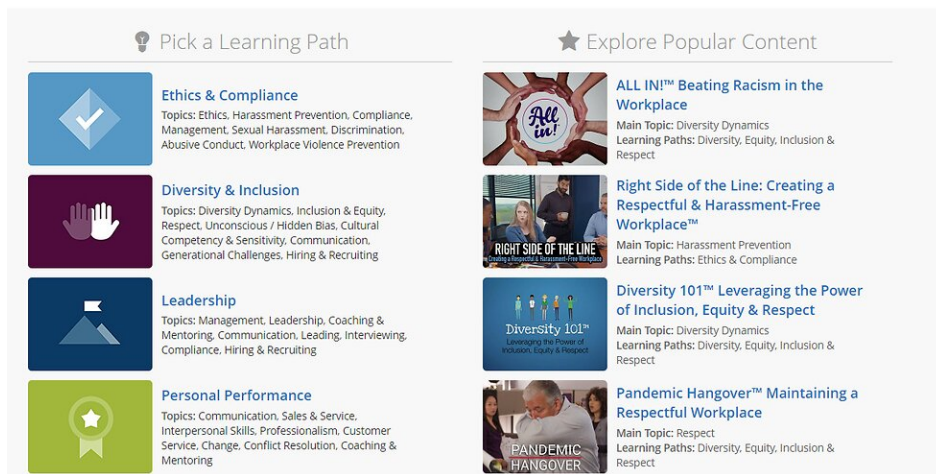

This is a step-by-step approach on sharing a training playlist in TAG®.

IMPORTANT: To share a playlist – you must first be logged in to TAG® and have created a playlist.

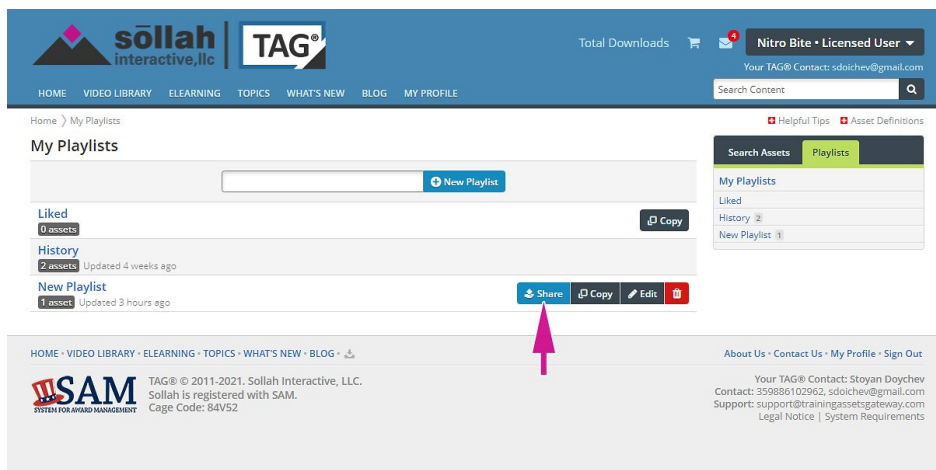

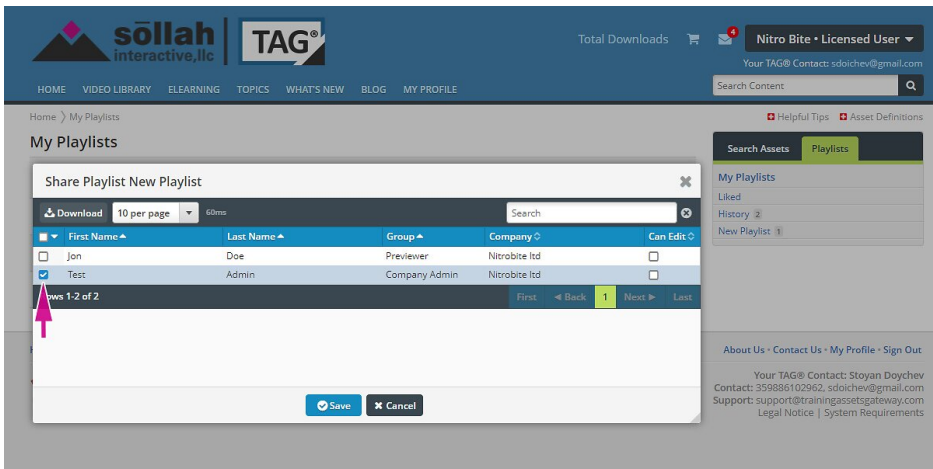

1. Go to the playlists page by clicking on the profile button in the top-right corner and then choosing My Playlists.

Engaging Training Content That Empowers Employee Change!
 Over 6,400 training videos, interactive eLearning courses & resources.

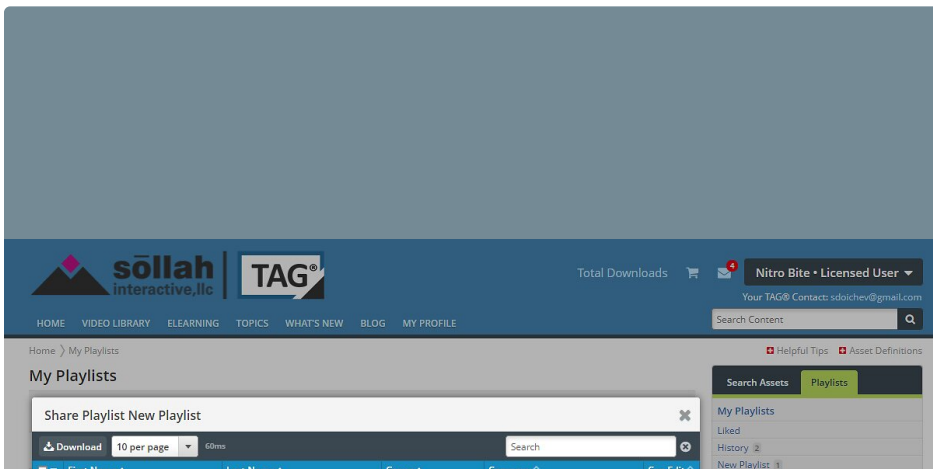

2. On the right side of each of your playlists there is a Share button, which opens a popup.

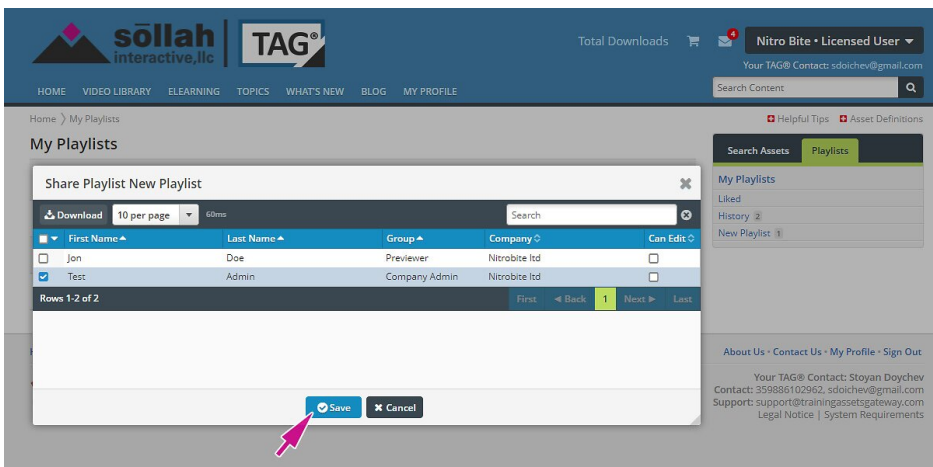

3. Find the person (or people) you want to share your playlist with, using the search box or the filters, and then selecting on the corresponding check box on the left.

Edit permission

Also, selecting the check box on the right will give the user permissions to change the name of the playlist and add/remove assets from it.

5. Click on Save button to share the selected playlists.
